

Dear Parents/Guardians,

As you are aware, all staff and students must self-screen every day before attending school. As part of our ongoing commitment to student safety, and as recommended by the Ministry of Education and Niagara Public Health, we will be adding an additional layer to our screening process after the October long weekend. Beginning on Tuesday, October 12th, all parents and students are required to follow the instructions below to engage in an active screening process that allows schools to verify if the daily school screening has been completed. Each day, if the student screener is not completed a follow up email will be sent to parents reminding them to complete it at that time. Everyone has a role to play in keeping families safe and reducing the spread of COVID-19. One of the most effective strategies is keeping COVID out of our schools and the daily COVID assessment is essential in achieving this goal. Please note that the DSBN is not collecting any specific health data about students or the results of the screening. Our system only reports confirmation that the screening has or has not been completed.

Please click on the link below for instructions on how to complete the daily online screening:
